

# Table of Content

Preface .....	V
About the contributors .....	IX
Introduction by the President of the ICA .....	XXIII
<i>Georg Gartner</i>	
<b>Section I. Introduction to SOMAP .....</b>	<b>25</b>
1. Standards: The foundation for service-oriented mapping .....	27
<i>Athina Trakas</i>	
2. Service Oriented Mapping: Maps, Apps, Tools and Subscriptions ..	39
<i>Paul Hardy</i>	
3. Introducing a New Paradigm for Provision of European Reference Geo-Information - Case Study of the European Location Framework Concept .....	51
<i>Antti Jakobsson</i>	
4. Enhancing Handheld Navigation Systems with Augmented Reality	63
<i>Dieter Schmalstieg</i>	
<b>Section II. Diversity of Service-Oriented Map Production .....</b>	<b>81</b>
5. Distributed Competences and Focused Ressources .....	83
<i>Markus Jobst, Eva-Maria Unger</i>	
6. A Pragmatic Approach to the Production of a European Reference Map .....	95
<i>Anja Hopfstock</i>	
7. Service-Oriented Architecture as a Tool for Map Synthesis .....	105
<i>Alena Vondráková, Vít Voženilek, Rostislav Néték</i>	
8. Web Map Service Performance Testing based on Extents Generated Randomly or by Algorithm Simulating General User Behaviour .....	115
<i>Jan Ruzicka, Dusan Cibulka, Pavel Mracek</i>	
9. A Service-Oriented Platform for Interactive 3D Web Mapping .....	127
<i>Jan Klimke, Benjamin Hagedorn, Jürgen Döllner</i>	
<b>Section III. Selected Use Cases .....</b>	<b>141</b>
10. basemap.at – Creating a Harmonised Web Basemap for Austria ...	143
<i>Manuela Schmidt, Wolfgang Jörg</i>	
11. EuroRegionalMap – A joint production effort in creating a European Topographic Reference Dataset .....	151
<i>Anja Hopfstock, Nathalie Delattre, Birute Vilunaite, Andreas Pammer, Noémie Grémeaux</i>	

12. Creating thematic maps online using PHP, KML and Google Earth, an example of visualizing selected indicators for the Slovak republic <i>Vladimír Bačík</i>	163
13. Crime Mapping as Service-Oriented Mapping ..... <i>Peter Schmitz</i>	181
14. Open Source Geospatial Technologies in the Context of Peri-urban problems around Kraków, with particular respect to the commune of Michałowice ..... <i>Józef Hernik, Robert Dixon-Gough, Jarosław Taszakowski</i>	201
15. Integrating map services for the living environment ..... <i>Bas Vanmeulebrouk, Arno de Ruijter, Jandirk Bulens, Inge La Rivière</i>	215
16. The European Union INSPIRE geo-portal: Current state of development and lessons learned ..... <i>Jean Dusart, Robin Smith, Andrea Perego, Angelo Quaglia, Alessandro Dalla Benetta, Ioannis Kanellopoulos</i>	227
<b>Section IV. Advanced Perspectives of Service-Oriented Mapping</b>	241
17. The effectiveness of Web-delivered mapping products ..... <i>William Cartwright</i>	243
18. Towards Comprehensible Digital 3D Maps ..... <i>Sebastian Pasewaldt</i>	261
19. Combining Web Map Services and Opinion Mining to generate Sentiment Maps of Touristic Locations ..... <i>Sarah Tauscher, Karl Neumann</i>	277
20. Location-aware Visualization of Mobile Map ..... <i>Chaode Yan, Renliang Zhao, Meng Xiaolin</i>	287
21. Service-Oriented Architecture of Intelligent GIS ..... <i>V. Popovich, A. Pankin, F. Galiano, S. Potapichev, N. Zhukova</i>	297
22. Approaching a Software Framework for Cartographic Visualization <i>Sebastian Specht</i>	311
23. Automated Image-Based Label Placement in Interactive 2D/2.5D/3D Maps ..... <i>Christine Lehmann, Jürgen Döllner</i>	321
24. Current approaches for networks between NGO's, citizen scientists and public authorities using mobile devices for environmental data collection and web-portals for data processing ..... <i>Christian Aden</i>	335

25. EOxServer – Accessing Online Large Archives of Earth Observartion Data .....	353
<i>Joachim Ungar, Marko Locher, Stephan Meissl</i>	
26. Derivation and Visual Exploration of 4-D Building Deformation from High-resolution SAR Data .....	359
<i>Linfang Ding, Guohui Xiao, Liqiu Meng</i>	
27. Spatio-temporal Visualization of Simulation Results using a task-oriented tile-based Design-Metaphor .....	369
<i>Johannes Scholz, Manfred Mittlböck</i>	
<b>Section V. Geobusiness Considerations and Perspectives .....</b>	<b>383</b>
28. Non-technological Aspects of Service-Oriented Map Production ...	385
<i>Alena Vondráková, Vít Voženílek, Rostislav Néték</i>	
29. eBusiness for GeoServices - Electronic Licensing and Procurement	399
<i>Rüdiger Gartmann</i>	
30. Swiss Map online and the Federal Spatial Data Infrastructure of Switzerland .....	407
<i>Reto Künzler, David Oesch</i>	
31. Towards a Historical GIS Platform in Poland .....	417
<i>I. Gołębiowska, I. Karsznia, T. Panecki, D. Mikiewicz</i>	
32. Digital preservation audit on spatial data: a practical experience ...	431
<i>Miquel Termens, Anita E. Locher</i>	
<b>Section VI. Service-Oriented Atlas Applications .....</b>	<b>443</b>
33. The Dutch National Atlas in a Service-Oriented Architecture .....	445
<i>Barend Köbben</i>	
34. The Statistical Atlases of Switzerland and their Atlas Content Management System .....	453
<i>Thomas Schulz</i>	
35. ÖROK Atlas online .....	471
<i>Alexander Pucher</i>	
36. Atlas of Special Educational Centres in the Czech Republic .....	481
<i>Vít Voženílek, Alžběta Brychtová, Alena Vondráková, Jan Michalík</i>	
37. Mapping of Drug Related Statistics with Open Source GIS .....	495
<i>Odil Kurbanov</i>	

- Section VII. Cookbook on Webmapping and GeoWebServices** ..... 515
- A. The language of the Web ..... 517
- B. Introduction to GeoWebServices ..... 531
- C. Introduction to the OSGeo Live System ..... 541
- D. A Simple Map Client in a Webpage: OpenStreetMap in an  
OpenLayers Website ..... 543
- E. Creating data in a desktop GIS using Quantum GIS ..... 553
- F. Serving Data as an OGC Web Map Service: Using WMS  
with UMN Mapserver ..... 559
- G. Serving Data as an OGC Web Map Service: Establishing WMS  
with Geoserver ..... 575
- H. Web Map Services in a web client: Mapserver WMS in OpenLayers 579
- I. WMS in a webmap page: Combining WMS and OpenStreetMap ..... 589
- J. Introduction to SQL, the Structured Query Language ..... 593
- K. PostGreSQL/PostGIS Satial Databases: Using PostGIS with  
pgAdmin and QGIS ..... 603
- L. PostGreSQL/PostGIS Spatial Databases: Using PostGIS Data in a  
MapServer WMS ..... 611
